

# TO OUR PATIENTS....

## OUR FACILITY PARTICIPATES IN ELECTRONIC HEALTH INFORMATION EXCHANGE

Electronic Health Information Exchange allows your health care team to share your electronic health records quickly and securely with each other.

### HOW DOES HEALTH INFORMATION EXCHANGE HELP YOU?

**EMERGENCY:** It could help save your life in an emergency by sharing your health records with emergency room doctors right away.

**SAFETY AND PRIVACY:** It keeps your health records safe and private. Only your health care can see them over a secure electronic network.

**BETTER CARE:** A more complete picture of your health helps your doctors take better care of you.

### WHAT IF YOU DON'T WANT YOUR HEALTH RECORDS SHARED?

If you do not want to share your health records with your health care team even in an emergency-our facility can help you with the appropriate forms.
